

AI SOC Analyst

Dropzone AI autonomously investigates routine alerts so that MSSPs can keep a competitive edge

MSSPs that want to scale their MDR services often face challenges around staffing and supporting numerous security technologies. One worry is that as the MDR service scales, clients will experience a drop in service quality.

Dropzone AI offers a pre-trained AI SOC analyst that autonomously handles Tier 1 alert triage and investigation for every alert. It replicates the investigative process and techniques of expert analysts, enabling MSSPs to scale their MDR offerings without sacrificing quality. With Dropzone AI, every alert receives a consistently thorough investigation and detailed write-up.

Benefits

Delight your customers	Scale with confidence	Expand your MDR coverage
<p>No more alert escalations with thin context. Deliver detailed investigation reports that your customers will love. Ensure consistently high-quality investigations and reports, no matter what.</p>	<p>Scale your business confidently without having to worry about overloading your team. Dropzone AI will help you to deliver fast and consistent investigations even as your business grows.</p>	<p>Open up new client opportunities by supporting tools that your prospective new clients are using. Dropzone AI expertly investigates alerts from a wide range of SIEM, EDR, identity, cloud, and other technologies.</p>

	Human-only MSSP	MSSP with Dropzone AI
Investigation turnaround time	60 minutes	<10 minutes
# of alerts investigated per analyst	30-60 each day	150-300 each day
Context provided when sent to customer	Varies	Detailed
False positives sent to customer	10% of escalations	5% of escalations

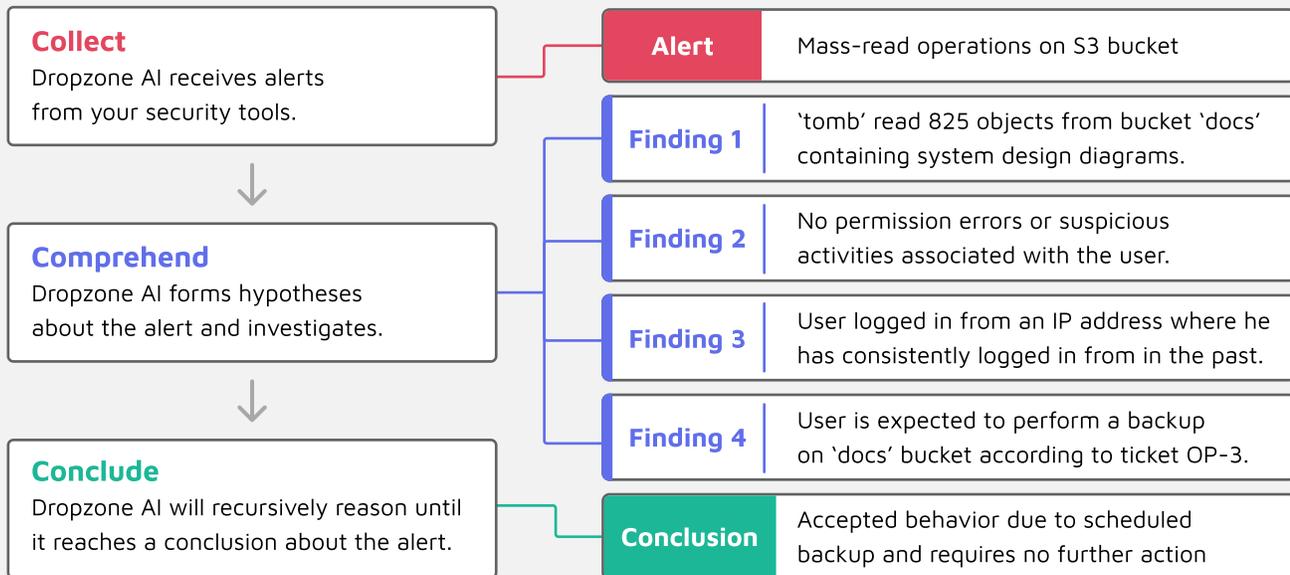

“The use of Dropzone allows Critical Insight’s SOC analysts to concentrate on the tasks that truly require human intelligence while having Dropzone handle SOC tasks suited for AI. We’ve measured and validated an increase in the speed and quality of investigations.”

Garrett Silver
CEO, Critical Insights

How It Works

Dropzone's AI SOC analyst is an extension of your team that tirelessly investigates incoming alerts, using the same techniques and tools leveraged by elite analysts.
